Dear Judy

Thank you for your email of 5 October 2012 requesting an internal review of your previous Official Information Act request.

We regret that you did not find our previous responses helpful. Dr Jan Kupec, CERA's Chief Geotechnical Engineer had informed me that he has now met with you to discuss the particular questions and issues you wanted addressed.

Jan is happy to assist in any further way he can with specific geotechnical questions you may have or any specific issues you would like further clarity on.

Yours sincerely
