Hi [REDACTED]  
Attached are our comments, it was quite a large document to consider (over 200 pages), so we decided to concentrate on the issues of most importance to AgR.  
Thanks

Nothing from me. I would like to think that we could have changes made that would mean we don't have to respond to frivolous requests or requests that are simply some using the IOA to obtain information that will subsequently be used for commercial gain (which is what we suspect a recent IOA request was about) but it would be use saying they are frivolous or for commercial gain rather than monitoring democracy etc and that it never going to gain any support.

Thanks
