Dear Mr Beagle

I refer to your Official Information Act request of 18 July 2013 in which you requested the following information about whether Police intend to deploy digital red-light cameras or speed cameras that support Automatic Number Plate Recognition.

- 1. Are the police intending to deploy any red light cameras that support automatic number plate recognition (ANPR)?*
- 2. If so, do the police intend to use the ANPR function?*
- 3. If so, will this be used only for cars that are detected as running a red light (or any other offence detected by the cameras) will it be used for all cars?*
- 4. Are the police intending to deploy any speed cameras that support ANPR?*
- 5. If so, do the police intend to use the ANPR function?*
- 6. If so, will this be used only for cars that are detected as speeding (or any other offence detected by the cameras) or will it be used for all cars?*

There are no current plans to deploy either digital red-light cameras or speed cameras that support Automatic Number Plate Recognition.

Yours sincerely

Superintendent Carey Griffiths
National Manager Road Policing
Police National Headquarters
