What would you like to do? I want to add information

Please provide the information you'd like to add to your report.:

Is there any availability of literally any other online file storage website on the internet that the Police won't treat as a "significant security concern". Or are the Police saying that all citizens should treat Google as a security concern? Maybe it is just the Police that have this issue with Google. In the past, this site has been fine:

URL ->downloads.thebusfactor.party/for-police/190213-6528.mp4

Let me know if you can't get that.

Do you have any files you would like to upload? No

Narrative: Informant submits, via CRL web portal, following information:

I got a phone call on May 15 from a private number who left a message. The caller said they were "the Police from Wellington" and left no contact details or a way to return the call.

They were saying they were unable to get the videos attached to what I now believe is this case. I'm unable to attach due to size. A better way to do this online would be ideal. Please contact me via email, or phone (and leave return details) and can work out how to send, or I can deliver physically.

Email response sent:

'Do not reply to this message, this email message has been sent from an un-monitored email address'

Thank you for your email.

As you are aware, there is no online facility for uploading CCTV footage because of its size.

A copy of the original CCTV footage can be handed in at a police station, for attachment to your file 190213/6528

Alternatively relevant still images from the CCTV footage can be uploaded to the file through the following link:

www.crl.govt.nz

Please email us again, quoting your file number, at information@police.govt.nz if we can help you any further.

Regards

New Zealand Police

Unless Mr Davenport calls back or sends through the video footage by some other means -
The bus company has been made aware of the allegation and has dealt with the matter internally -
I submit this report as complete.

Contacted Mr Daveport and updated him on the problem.

Created by MMAH24 14/05/2019 13:43

The attached Web site has significant security concerns and as a result i will not be accessing the website to view the video.
I have spoken to the bus company concerned and the driver has been spoken to regarding his driving behaviour.
I also re-enforced the possible penalties that could be imposed by his driving behaviour.
