Dear John,

I am writing to acknowledge receipt of your official information request for:

Besides the board itself, has ENZ or it's board setting up any advisory group to seek advice from the international students or ex-international students? I noted non of the current board member are international student or ex-international student, how the board able to understand the market from the student point of view? Has the board ever discuss the ideas of setting up an advisory group or stakeholder group which included the international student or ex-international student to better understand the market and "customer" feedback? If it haven't been proposed to the board, may I kindly request the board to discuss this at their next board meeting and forward me the decision.
