

Novel Coronavirus (COVID-19)- HQ JFNZ Risk Assessment for International Activities

Acty name:	JASCO BLACK				
Acty dates:					
Acty location:	South Korea				
Aggregated Risk⁽¹⁾	VERY LOW	LOW	MEDIUM	HIGH	VERY HIGH
COMJFNZ Risk Appetite:⁽²⁾	Cautious				

Table 1: Aggregated Risk Matrix

Location threat					
Country COVID-19 threat ⁽³⁾	VERY LOW	LOW	MODERATE	HIGH	VERY HIGH
Travel options for extraction	NZDF	Allies/multi-commercial	Limited commercial	International SOS	Uncertain/Nil
Duration of Activity	Transit	Transit – 7 Days	8-14 Days	15-28 Days	Permanent
Organisational risk					
Need for travel ⁽⁴⁾	Operations	OLOC	DLOC	NZDF Business	Personal
Impact of attending acty ⁽⁴⁾	Critical Enabling	Significant reputation	Allied Benefit	NZDF benefit	Nil significant
Travel numbers	1	2-3	4-10	11-99	100+

Notes:

1. From Table 1
2. "Cautious" requires a limited tolerance for uncertainty
3. Risk is unmitigated by NZDF health support plan; includes number of COVID-19 cases; includes percentage cased/local population; HN ability to respond; NZ ability to sustain life
4. Impacts are reversed due to the correlation of these to the aggregated risk (e.g. operations are the highest priority to the organisation so is aligned to the VERY LOW risk rating)
