All,

Confirmation from MoH that we will be limited to 800 doses per week.

Correction to last.

Calculations from VAX Coord cell incorrect.

This would halve the amount of pers that can be vaccinated.
We would require new direction on prioritisation and not achieving all pers being vaccinated.

Sir

OP VACCINATE 2/21 can be achieved in the planned timeframes with no change to SOMM and SOP's. It would require some appointment modifications and shuffling of throughput by week, however all pers identified to be vaccinated can still be achieved.

Important for us would be messaging to the pers wishing to be vaccinated, rep and expectation management.

Thanks

s. 6(a)

Ngā mihi

Char, s. 6(a)

Below is the intent from MoH regarding NZDF vaccine access – noting it is still yet to be signed off by the ministers. How does this affect our intended throughput for VAX2?

Char – are you happy to connect their comms lead with our DPA rep to begin preparing any messaging in this regard?

Hi

Not confirmed yet – vaccine ministers are meeting this afternoon and I'll give you an update following that meeting.

They are considering providing NZDF with 800 doses per week ongoing through June and July. Can't confirm that will be the decision but it's probably the likeliest option.

Who is delivering the vaccination programme? Is it your internal team or an Occ Health provider? If Occ Health, do we need to let them know?

Thanks for your support.

Ngā mihi,

You indicated yesterday that you'd provide better fidelity on how both what the decision was today and how it would affect us. Can you provide this please.

Hi All

s. 9(2)(a) in our communications team here will be working with your communications staff regarding any decision from the vaccination ministers this afternoon, as discussed with you on the phone yesterday/today.

Can you please connect s. 9(2)(a) with your comms contact?

Many thanks for your support with this.

We will update you later this afternoon once the Ministers have met.

Ngā mihi,
