

Three Waters TVC 3 Script
Client approved as at 20 September 2021

30'

We've got a plan to keep Aotearoa's water affordable, safe and reliable.

But the big upgrades will be too expensive for us Kiwis to foot the bill.

There's a better way.

We've made the call to reform our water services into 4 new public entities.

It's the most affordable way our water can be enjoyed now and by our grandkid's grandkids.

Because better water is better for everyone. [Now, the graphic only]
