Kia ora James,

The information you requested - CAS-533061-Q7N2F3

Find below the information requested on 29 March 2022 regarding the pole installed outside 33-37 Sandringham Road in February 2022.

Camera installations for enforcement purposes are positioned where activity may require remote enforcement. Auckland Transport as part of its standard enforcement suite, operates both static enforcement and CCTV enforcement designed specifically for Special Vehicle Lanes. Whilst being the purpose of design and implementation for SVL enforcement, we are also able to pick up static "parking" offences and issue against the vehicle "if" and "when" required. Footage can also be request by Police through enquiry. Auckland Transport can install static cameras at hotspots to generate increased compliance levels.

Placement and operation of the cameras are at the determination of the Road Controlling Authority (Auckland Transport).

Illegally parked vehicles can be infringed by manual capture (Parking Wardens), static cameras (Remote Enforcement), SVL (Special Vehicle Lance) CCTV enforcement (if required) and LPR cars.

Your request for "documentation containing discussion around, and decision on, not informing or consulting with public" is declined under Section 17(e) of the Local Government Official Information and Meeting Act 1987 (LGOIMA) as the information does not exist.

Should you believe that we have not dealt with your request appropriately, you are able to make a complaint to the Office of the Ombudsman in accordance with section 27(3) of the LGOIMA Act and seek an investigation and review regarding this matter.

Regards

John Strawbridge
Group Manager - Parking Services and Compliance
