Tēnā koe Chris,

Transfer of your request for official information

Thank you for your request under the Official Information Act 1982 (the Act) to Manatū Hauora (Ministry of Health) on 18 October 2022. You requested:

“A follow up on this - given this treatment is a new novel technology and there are so many dead within 21 days I would have thought all of these deaths would HAVE to be referred to the Coroner?”

It is unbelievable if they haven't. One case of Covid-19 shuts down the country, 177 deaths including children and nobody bats an eyelid at MOH.

I will try to rephrase of the 177 deaths

How many were of these occurred where the

- Report was not validated due to address not being verified, no NHI number or failed follow up with reporter per the flow diagram provided under another OIA request*
- GP of the deceased was attempted to be contacted (2 x minimum) - not contacted so therefore went to the ISMB for input and the case was closed per the flow diagram*
- Signed off by a GP or Health Practitioner and closed or classed as “unexpected or unexplained”*

Can you also clarify the following

- What is the criteria for a person to be classed as vaccinated? For example there are in excess of 3,000 deaths within the ‘Observed’ category during the monitoring period. If for example somebody dies within 7 days are these immediately discounted as being from the vaccine due to the person not being defined as vaccinated or are all reports of death after vaccine considered if someone reports?*

- And also - how are the observed deaths picked up?*

Please provide associated process documents eg

- Person vaccinated*
 - MOH follows up to see if person is feeling okay within monitoring period*
 - MOH doesn't hear back then what happens*
 - MOH contact GP / family?*
 - MOH finds out someone has died?*
 - GP / friends and family did not know the person was vaccinated in last 21 days so no*
-

report is filed and it's assumed natural causes

- Do MoH notify friends / next of kin that the person was vaccinated and they report it to GP / Coroner

*- Or do MOH not disclose and the death is added to observed in monitoring period
Please provide all steps taken and what is done to pick up observed deaths and the process following."*

The information you have requested is more closely connected to the functions of Te Whatu Ora (Health New Zealand). For this reason, I have decided to transfer your request to Te Whatu Ora under section 14(b)(i)(ii) of the Act. You can expect a response from their agency in due course.

Under section 28(3) of the Act, you have the right to ask the Ombudsman to review any decisions made under this request. The Ombudsman may be contacted by email at: info@ombudsman.parliament.nz or by calling 0800 802 602.

Nāku noa, na

Ian Torres
