15 November 2022

Dear Thomas

Thank you for your request under the Official Information Act, asking for:

***The average Engineering (Honours) first-year Grade Point Average (GPA) of students in the Engineering Part II program, for each specialization, for those undertaking part II in the years 2019, 2020, and 2021.***

AUT does not have a Part I / Part II structure in our Bachelor of Engineering Honours programme. So, to find a way to answer your question, we have interpreted students in Part II as anyone in that programme who was studying papers at Level 6 (second year) or higher in 2019, 2020, or 2021. We then calculated the average of those students' GPAs in the core Level 5 (first year) papers of the Bachelor of Engineering Honours, by major.

Major	Average GPA
Architectural Engineering	4.90
Construction Engineering	4.33
Electrical and Electronic Engineering	4.46
Maritime Engineering	4.41
Mechanical Engineering	4.71
Mechatronics Engineering	4.84
Software Engineering	4.42

Yours sincerely

Alison Sykora  
Director of Communications  
AUT
