Dear James

Request for information

Thank you for your Official Information Act 1982 (OIA) request of 30 April 2023. You requested:

Total number of call outs/incidents on Karangahape Road (K rd) Auckland, attended by Police on a month by month basis from November 2020 until May 1st 2023.

The number of violent incidents that have occurred and had Police involvement on Krd since November 2020 on a month by month basis until May 1st 2023.

When Police communication centres receive a request for service, an event is entered in the Communication and Resource Deployment (CARD) system. Events may come via many sources, not just phone, and may include officer-discovered events. For clarity, Police now refers to these as CARD events rather than call outs or calls for service – to avoid confusion with phone calls.

CARD events can only have one code type, and Police practice is to code the most serious risk or alleged offence. CARD code types have generic offence codes and incident codes. I have interpreted “violent incidents” as those CARD events that have been categorised as minor, serious, grievous assaults, or robbery.

Between 1 November 2020 and 30 April 2023, Police attended 1,692 CARD events located on Karangahape Road in the Auckland City Police District. This excludes events considered to be police-generated. This includes all events at all addresses at Karangahape Road, not specifically just those outside on the street. The most common events were disorder and breach of the peace. Of these 1,692 events, 161 events were minor, serious, grievous assaults, or robbery. The table below shows this information by month.

Table 1. CARD events attended by Police at Karangahape Road in Auckland City between 1 November 2022 and 30 April 2023.
