Caveats

- The status of the applications was collated on 3 July 2023.
- Applications within our system can be picked up by any citizenship trained Life and Identity Services Officer in any office.
- As the data is extracted from a dynamic system, there may be small variances when compared with prior or future datasets.
- The data for Workstream 1 shows a drop off in applications in October and November because the applications received from October 2022 onwards that did not meet the automated checks (and therefore moved to workstream 3) are mostly still in Workstream 2, as they have not yet been pre-assessed to move into Workstream 1.
