## OIA 2324 0408 - Appendix A

Caveats:

The data was collated on Thursday 25 January 2024 and is accurate as at this date.

Counts of less than 5 have been masked with <5 to prevent identification of individuals.

Country of birth is not confirmed until an application has been assessed by a LISO, therefore unassigned applications may not have the correct country. This is often the case with people entering New Zealand as the country of birth mistakenly.

As the data is extracted from dynamic systems, there may be small variances when compared with prior or future datasets.

The oldest applications currently getting picked up are from mid-September 2022 so the remaining unassigned apps from October 2022 will be picked up for processing early in the new year.
