Appendix A to OIA2324-0523

Caveats:

- The data was collated on Thursday 1 February 2024 and is accurate as at this date.
- The response has been split into two tables to prevent identification of individuals.
 The table with country of birth data has had counts of less than 5 masked with <5 for the same reason.
- Country of birth is not confirmed until an application has been assessed by a Life and Identity Service Officer (LISO), therefore unassigned applications may not have the correct country. This is often the case with people entering New Zealand as the country of birth mistakenly.
- As the data is extracted from dynamic systems, there may be small variances when compared with prior or future datasets.
