Hi Suzanne

Just wondering how you are getting on with confirming the traffic inputs. GTC is very keen to get the model runs underway but can't really do this until we have the baseline confirmed.

Also, re Nick Goldwater, I think early April is going to be too late to wait for the ecology input (that is 5 weeks away). Is it possible to see if Nick is in Wellington at any point earlier or could come down earlier to meet with Vaughan Keesing as GTVC are very keen to see if agreement can be reached as to the extent of the SNA's onsite. This is another item that is preventing further road design work being done.

Many thanks  
Pherne.
