Hi Suzanne

Further to our discussion on Thursday, GTC are prepared to meet the cost of Nick Goldwater which you have indicated is max \$1800 (daily rate).

Vaughan can meet Nick on Thursday he has suggested meeting at Council (if you can make a room available) for he and Nick to have an initial chat then they can identify areas which they may want a further look at onsite before heading out to GTC.

The weather for Thursday is looking horrendous so if that precludes the amount of time spent onsite, I assume Nick would not charge for the whole day and would only charge for time spent?

Let me know if this would work.
Pherne.
