Hello
Did you manage to connect with [REDACTED]
on that question re offshore residents
and military visa categories I called
about a month or so ago?

Hey Mate wondering if you could help with a contact with in NZ govt. I'm with a bunch of Kiwi's locked down in our hotel in Noumea with massive riots happening. There is French military vehicles everywhere gun shots explosions less than 1km away it's pretty intense. The hotel have also advised there is limited bottled water and food will have to start being rationed from tomorrow.

We have zero info from MFAT and unsure how/if/when we are able to get out of here.

Shane Reti is my MP - just wanting a contact to try and get info and have a plan

MFAT now activated. I stressed urgency. Our mission is of course paltry and likely advised to shelter in place. I'm going to let my Minister know too.

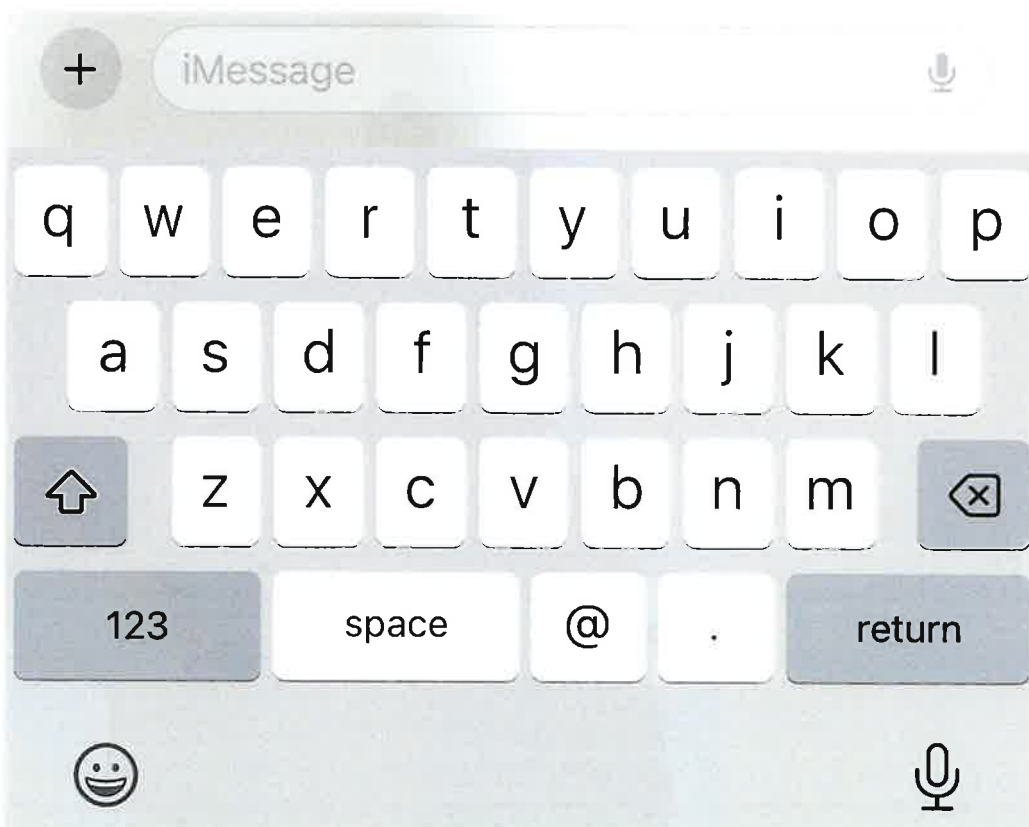

From my guy

Delivered

Thank you again

Hi again. Below messages from my friend in Noumea. He has asked me to pass on as it may be helpful in evacuating people:

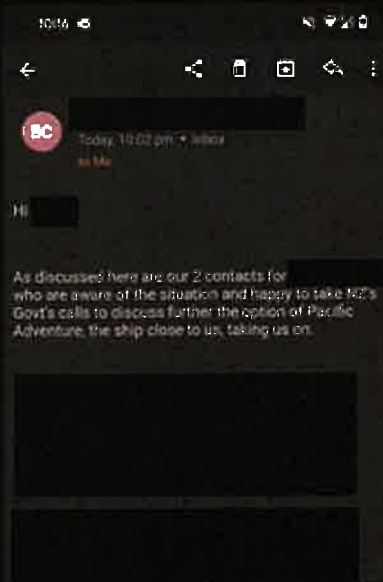

Hey Mate sorry to bother you. Shit is a bit worse today. Sounds like they're about to announce a state of emergency.

With us is the Sales Manager for [redacted] They have a ship sitting 5 hours away and could come in for the Kiwi's/ Aussies to tender out to - Airports are all completely cut off and closed until further notice.

Any chance you could pass this info including the below image through to someone senior in GOVT. No ways we guna fly outa here soon

As discussed here are our 2 contacts for [redacted] who are aware of the situation and happy to take NZ's Govt's calls to discuss further the option of Pacific Adventure, the ship close to us, taking us on.
