

Appendix B to OIA 2425-0458

Caveats to data sets:

- The data was collated on 26 November 2024 and is accurate as at this date.
- Tables with country of birth data have counts of less than 5 masked with <5 to prevent identification of individuals.
- Country of birth is not confirmed until an application has been assessed by a Life and Identity Services Officer (LISO), therefore unassigned applications may not have the correct country. This is often the case with people entering New Zealand as the country of birth mistakenly.
- As the data is extracted from dynamic systems, there may be small variances when compared with prior or future datasets.
