

#### Location:

Northland to Wellington & and some South Island city activations

#### **Date and Time:**

Sunday 10th November to Tuesday 19th November

#### Background/Methodology:

Due a hīkoi (march) taking place, we are expecting some disruption to the State Highway network through many vehicles on the network, planned marches in town centers and overnight camping at local maraes. We have a confirmed overnight destinations they plan to use with dates in place, but we do not know to what extent there will be congestion. There are reports of up to 50,000 participants with 1 or 2 vans working as a relay for runners who plan to run the distance, but this may not be for the whole journey. There are concerns other protest groups may use this as an opportunity to voice their own message, but the organizers have assured they will be separate and independent from the Hikoi.

Police will not intervene in the Hikoi unless the drivers are behaving in a dangerous manner e.g people sitting in the bed of the Utes or swerving to cut people off from passing them etc

#### s 9(2)(g)(i)

. We also will not

directly advertise the event on our VMS or on the website. There are two plans below to describe if it is in a rural or urban (for example SH1 Wellington City to SH2 Manor Park or SH1 Foxton in Manawatu) area.

Due to the impact, we will use our NIEMS and DYNAC Platforms to advertise these delays if they occur. Social media posts will be handled separately with the Travel Information Team. Our action timeline will begin from the date where the Hikoi will enter our AO.

Link to assist with traffic monitoring alongside BAU methods of notification:

https://trafficwatcher.nzta.govt.nz/wtoc/list & https://www.google.co.nz/maps

#### **Actions Timeline**

Date & Time	Action
Friday 15 <sup>th</sup> November	
9:30am	Group to leave Rotorua. Begin monitoring of WTOC area, using available resources.
5:30pm	Sitrep will be released by ATOC, but feed into this with any observations from the Rotorua to Hastings leg of the Hikoi
Saturday 16 <sup>th</sup> November to Monday 18 <sup>th</sup> November	
5:30pm	Sitrep to be released by Senior or TL, highlighting any issues or congestion and tracking Hikoi movements
Sunday 17 <sup>th</sup> November	
2pm onwards	Police to request use of Kimberly N VMS. Utilize appropriate messaging based on the impact.
5:30pm	Sitrep to be released by Senior or TL, highlighting any issues or congestion and tracking Hikoi movements
Monday 18 <sup>th</sup> November	
10am	Small activation in Masterton through to Greytown. Watch for Delays.
5:30pm	Sitrep to be released by Senior or TL, highlighting any issues or congestion and tracking Hikoi movements
Tuesday 19 <sup>th</sup> November	
4am – 6am	Hikoi to start walking from Petone to Ngauranga on SH2. Monitor cameras on esplanade, Petone onramp and use relevant DYNAC Plans.
9am - 12pm - 3pm	Will have 3 sitrep updates. Sitrep to be released by Senior or TL, highlighting any issues or congestion.
At any time during the Hikoi	
If you are notified or observe delays in an urban area	Implement DYNAC Plan 1
If you are notified or observe delays in a rural area	Implement DYNAC Plan 2
If there are delays of over 15 minutes in any area	Implement NIEMS Plan 1 and TA Plan 1

#### **Notification Channels**

After the Hikoi leaves Hastings we should monitor the Manawatu police channel for any updates in congestion and any requests for messaging or signal changes.

Palmerston North police will have their DCC activated, and they have been told to contact WTOC either on the 0800 number or the police channel. Police will be a key resource as we do not have good visibility in Palmerston North but have assets we can use to support.

#### Sit Rep:

A sitrep is to be produced and released by a Team Leader or Senior at 5:30pm from Saturday 16<sup>th</sup> to Tuesday 19<sup>th</sup> November. On Friday 15<sup>th</sup>, WTOC will feed into the sitrep as it crosses over into our boundary. ATOC will release this final one.

ATOC will be producing their own sitrep and will stop monitoring when the convoy leaves their ATOC area of operation. A template of this Sitrep can be found in the Sit Rep Teams folder under: NZTA Sitreps – Templates – Hikoi Nov 2024 Nov Template. Please use the National Distribution list for the most up to date list.

The sit rep should include CCTV screenshots if available, maps showing congestion, screenshots of any relevant social media comments or messages. This should highlight the Hikoi movements and what road conditions were observed.

#### SH2 Petone to Ngauranga:

There is a high possibility of a splinter group walking from Petone foreshore to Wellington CBD via SH2. We don't know the estimated numbers, but could be upwards of 1000. We are in talks with police about their expectation for how contractors will support this section, but likely to be an ad hoc and fluid incident. <a href="DYNAC Plan 3">DYNAC Plan 3</a> has been created as a guide if there is a lane impacted, but can be changed as needed. During this time, its important to remain in constant comms with Police and WTA units who will be nearby to manage any disruption and provide a safety element to all other road users.

#### Staffing:

redactions under s9(2)(a) of the OIA - privacy

## Saturday 16th

SCATS - Nick 8:30am to 6pm TA - Clint 8am to 5:15pm

### Sunday 17th

SCATS - Nick 8:30am to 6pm TA - Clint 8am to 5:15pm WTA onsite in afternoon

#### Tuesday 19th

2MATION ACT 1982 SCATS – Jono, Ray, Hamish 5:45am to 3pm (Steen from 4am to 6am)

TA - Jinx 4am - 12:30pm Janine 6am to 2:30pm.

Jana all Jan WTA, Road Policing manager, Mike Brosnan all onsite from 4am onwards.

### **DYNAC Plan 3 Petone to Ngauranga**

This plan is to be used if we have active disruption on SH2 from Petone. Signs to be updated as the hikoi moves along SH2, adding in Weigh Station etc.

<u>Lane Blocked</u> terminology can be swapped with current road status ie Lane Closed, Congestion, Incident, Slow Moving Vehicles.
