Dear [REDACTED]

**G61671 – PEDESTRIAN CLIP ON BRIDGED ATTACHED TO BRIDGE 19 WAIRARAPA LINE - NOTICE OF TERMINATION AND NOTIFICATION OF KIWIRAIL WORKS**

Thank you for meeting with 9(2)(a) - Privacy on 8 October 2024. We refer to the Grant Agreement we have in place with you dated 24 February 2006 for the clip-on pedestrian bridge attached to rail Bridge 19 on the Wairarapa Line. We advise that there is planned maintenance for the bridge and replacement of life expired track components which is due to commence from 24 February 2025.

To ensure rail operational safety, sections of the walkway, including the walkway deck, needs to be completely removed to enable the track and bridge maintenance. This is because the pedestrian structure is tied to the track infrastructure. We therefore advise that the bridge will close and will be inaccessible to the public from **Monday 24<sup>th</sup> Feb 2025**. Could you please notify all affected parties, including the community, subcontractors and any other relevant stakeholders of these access restrictions. It is important that everyone complies with these restrictions to ensure their safety. KiwiRail's works is expected to be completed by Monday 3<sup>rd</sup> June 2025.

If you are intending to reinstate the bridge then it will need to be redesigned so that it will comply with the current standard. The bridge reconstruction will need a Grant Application to be completed so that it can be reviewed by our Engineering team. A new or reinstated bridge would need to be documented by way of a new Grant Agreement. For completeness, this letter serves as twelve months notice to terminate the current agreement (G61671) dated 24 February 2004.

We acknowledge the inconvenience this will cause and appreciate your cooperation in advance to ensure the safety of everyone.

If you have any questions, please do not hesitate to be in touch.

Your sincerely
