Dear Alex

REQ232888 GTFS data

You provided a request for information via the FYI.ORG website in May 2026. The following is our response to your questions.

Request Details:

LGOIMA – BUSIT real-time GTFS data Dear Waikato Regional Council, I would like to know if the GTFS realtime data could be published publicly alongside the static data that already is published on the BUSIT website for people to integrate into apps and projects. If this is not possible, I would like to know why.

Council response.

We apologise for overlooking your initial request and for the delay in responding. Thank you for following up with us.

As noted, current static GTFS information is available on our website at: <https://wrcscheduledata.blob.core.windows.net/wrcgtfs/busit-nz-public.zip>.

Unfortunately, Council does not currently have an API available for developers or the public to use to access GTFS realtime information. For that reason, realtime data cannot be published alongside the static GTFS data at this time.

Yours faithfully

Jennie Cox
