

## OIA-22224 – Crashes at intersections

**Report Date:** 23/06/2026  
**Data extract date:** 23/06/2026  
**Requester:** Nigel Gray  
**Request:** 1. Research, studies, or analysis held by Waka Kotahi Please provide [...] data extracts relating to:  
-  
The relationship between traffic signal outages (planned or unplanned) and traffic crash frequency or severity.  
**Source database:** CAS  
**Report produced by:** Statistical Services  
**Peer reviewed by:** Statistical Services

**Please note the following concerning the data contained in this spreadsheet:**

- This data is provided from the road traffic crash database; Crash Analysis System (CAS) version 2.14.2.
- NZ Transport Agency Waka Kotahi (NZTA) maintains CAS which is updated once a Traffic Crash Report (TCR) is received from New Zealand Police sometime after the crash.
- Data is for all crashes for the period 1 May 2025 to 30 April 2026 as recorded in CAS to date - as at 23 June 2026.
- Data is limited to crashes at intersections.
- A crash, to be recorded in CAS must have occurred on a road. The CAS definition of a road is any street, motorway or beach, or a place to which the public have access with a motor vehicle, whether as of right or not - for example, a public car park.
- Due to New Zealand Police reporting time frame and subsequent data processing, there is a lag from the time of a crash to full and correct crash records within CAS.
- Data relating to fatal, serious Injury and minor injury crashes is usually recorded in CAS within one working day of NZTA receiving it from New Zealand Police. Data relating to non-injury crashes is usually recorded in CAS within six weeks of receipt.
- Due to the nature of non-fatal crashes, it is believed that these are under-reported, with the level of under-reporting decreasing with the increasing severity of the crash.
- Crash severity is the severity of the worst injury in the crash. There may be more than one injury in a crash, so the crash and injury counts may have different numbers.
- 2026 data is not yet complete in CAS, but these are the current figures from CAS as at 23 June 2026.

For further information, please contact [StatisticalAnalysis@nzta.govt.nz](mailto:StatisticalAnalysis@nzta.govt.nz)

This information must be read in conjunction with the Caveats on the first page of this spreadsheet

\* 2026 data is not yet complete in CAS, but these are the current figures from CAS as at 23 June 2026.
