Subject: RE: Road Closure register for publishing - 13 April 2026

Hi Adarsh

Yes correct and apologies for the confusion, the TTM company have not done this correctly
- I have asked Nadia to update the form on their behalf and resend to you.

[@Nadia Jooste \(AT\)](#) as discussed we just want the 19th in columns K & L, and leave contingency columns blank.

Confirming the event is not going ahead on 12th April due to the cyclone, they will only go ahead on 19th April now.

Kind Regards,

Maddy Pain

E [.@..](#)

As per the updated form provided by Nadia, contingency dates are mentioned as 19/04/26 and original dates still remains to be 12/04/26- does this mean the events are taking place on the 19/04/26 instead? unfortunately the register doesn't pick up closure sites based on contingency dates but rather on actual start and finish dates.

[illegible]

Email: .@.. | www.at.govt.nz

Hi all

Can you please confirm that the change for Waterfront Half Marathon has definitely been actioned? As per the list sent today the new event date doesn't seem to be included? Will this be on the website on Monday or should it have been updated already given the 12th April date will not go ahead? I can see last update to the website was 7th April.

Tamaki Drive

Orakei, Central Auckland

 Road closed  12 April 2026 to 12 April 2026  Between 4am and 11.30am

[Show less information](#) ^

 **How to get around:**

If you live along this road, traffic controllers will help you access your property.

 **Road closure details:**

Road closed between The Strand and Saint Heliers Bay Road

P Parking information:

No on-street parking available during works.

 **Status and duration:**

Daytime

 **Why this is happening:**

Waterfront Half Marathon

Subject: Waterfront Half Marathon - updated route feedback

Hi Emily

As discussed, please see feedback to consider regarding the updated change in route for Waterfront Half Marathon around Te Komititanga Sq and side streets.

RCA perspective: *As long as the organiser have sorted out the clashes with the existing work sites- no specific issues.*

AT Facilities (Mac): *remind everyone that there is an Ambulance Parking bay outside the rear door of Britomart on Galway St.*

If there is any medical emergency at Britomart, that's where the ambulance would go.

I assume you would have medical coverage for the half M so they should be able to use that avenue in the case of an emergency.

They would have to be included in this conversation to enable them to make alternative arrangements with FENZ.

Please consult with St Johns and FENZ to ensure emergency access to Britomart Station is maintained at all times, including access points and route to rear door ambulance parking bay.

AUDO: Sarah Briggs has passed on info to Cathy s7(2)(a) Privacy at Queens Wharf Event Centre as the wharf is not AUDO – I advised her that I think Council/EO are already in comms with Cathy Chambers and Anders for Queens Wharf but if not, please see their email addresses for stakeholder approval of use of the wharf - ..@.. > s7(2)(a) Privacy

s7(2)(a) Privacy [@aucklandlive.co.nz](mailto:s7(2)(a) Privacy@aucklandlive.co.nz)>

Bus team rep, Traffic Engineering, Road Maintenance: No issues to route change from previous version.

Please note from Special Events feedback, same as RCA – TTM Provider/EO will need to consult all potential clashes for clearance as part of TMP application/approval process. Please consider previous feedback for bollards etc around Te Komititanga Square.

Please ensure there is pedestrian access to/from Britomart (Waitemata Station) for train patrons and staff. Consider access for businesses and resident carparks within these side streets (we had feedback for Santa Parade for this area so calling it out as something to consider for access and letter-drop/comms).

Kind Regards,

Maddy Pain

Hi all

Just jumping in here to thank Nadia for her quick action in getting this sorted for you.

Please note that while TCC have agreed to add this as an extraordinary item for their meeting next week, this does not mean that the updated parking resolution is approved at this stage. They will let us know if there are any issues when they review the updated report.

However the TMP approval from AT will allow Colin to get this in front of ASM for their approval on the SH16 section of the traffic management.

Kind Regards,

Maddy Pain

Morning all,

Thanks for advising of the below Rob.

We'll come back to you with an update from the AT side as soon as possible, however it's unlikely we'll have anything before midday. We realise the importance of getting updates out to participants so working through it as fast as we can.

Maddy is at a training course today so please continue to use this email chain for any updates so that we are all across it.

Thanks.

Laura.

Mōrena Rob,

Thanks for advising. We will aim to get an update out to our stakeholders to advise of the postponement this afternoon to align with the timing of your messaging to your participants.

Once we have received an update from AT Spec Events and a copy of the approved TMP we will continue working through the process.

Ngā mihi,
Carl

Subject: Re: waterfront update

hi guys

i wanted to check in this morning to see how things are going. the forecast for wind on sunday morning has not changed to any great degree. we also have met service calling the storm "potentially life threatening" and the prime minister chiming in. given all that, i don't think it is

tenable for us to go forward on the weekend, no matter what happens over the next 24-48 hours.

so i would like to get this out to participants as soon as possible, ideally by lunchtime today. it will make things one million percent better if we can announce the rain date at the same time.

i appreciate that we will not have an answer regarding the traffic advisory today. however, with colin's help - and the knowledge that we have run the event for 6 of the last 7 years without one - i believe this can be overcome.

is there anything else preventing us from making the move to the 19th?

thanks for looking into this and ... whilst i have the talking stick... a personal thanks from me for all the time everyone here has spent trying to make the best of this bad situation. it is very much appreciated and will not be forgotten.

cheers

rob

Kia ora All,

Thanks Maddy, we look forward to seeing updates around how this progresses.

Rob & Amber – from an event facilitation aspect, if the event was to proceed without parking resolutions in place, we would require an updated H&S plan showing how the event will manage vehicles parked within the course, and how it would be managed if these vehicles were to leave the event space safely. This would need to be submitted so our health and safety advisor can review the updated documentation.

We will hold until Maddy provides an update from her end.

Ngā mihi,
Carl

Subject: Re: waterfront update

thanks for the update. will wait to hear from you.

i think we can manage the buses and course without the parking resolution - if it was going to be the thing that stops us going ahead with the 19th. but of course would prefer to stick with what we already set out.

rob

On Wed, 8 Apr 2026 at 09:04, Maddy Pain (AT) <xxxxx.xxxx@xx.xxxx.xx> wrote:

Hi Rob

Thanks for your email.

Noting for the parking resolution you have authorised parking, bus parking etc. as well as the no stopping, so I imagine it would be a challenge to facilitate the event operations without parking officers being able to clear these areas for your bus operation and authorised vehicles?

I am waiting on an update from some internal teams regarding any feedback on going ahead on the 19th.

If you will have Britomart/Te Komititanga open earlier in the day then this shouldn't be an issue with people travelling to Auckland FC.

Kind Regards,

Maddy Pain

Subject: Re: waterfront update

thanks so much for getting back to us maddy.

right now, i think we're 60/40 go/postpone - so we're still hopeful it will be ok to go ahead,

even though we have already pulled back all the on course entertainment, big arches, etc.

that said, we will want to be in a position to give a new date on friday if we have to postpone. so if we can push ahead with trying to make april 19th work, i think that is the right call.

just running through your points:

1/ colin and his team are working on the myworksites conflicts and we believe this is doable.

2/ parking enforcement. although we definitely want to have this, we did not have a parking enforcement before the 2025 event. is it possible to produce the event on the 19th without one?

3/ feels like the auckland fc match shouldnt be an issue as we will be out of britomart by 9.

4/ yes, the letterdrops were completed and the rain date was included on those

i think we want to exhaust all possible efforts to stick with the approved rain date. only if that fails should we be looking further into the calendar.

i'm not sure what the next steps are but if there is anything needed from us, please just let me know.

thanks

rob

Hi all

I have had a look through the application – the rain date was not included in any of the TMP application documentation including road closure notice etc. so it has not been communicated/advertised and is not on the approved parking resolution.

This has also not been discussed from a network coordination point of view – e.g. there may be third-party worksites which would conflict with 19th April date.

If you are wanting to proceed on the 19th we would need to ensure that this is possible from a parking enforcement point of view; if it's possible for TCC to review and approve as an extraordinary item before that date; and we would need to communicate to PT/Network Comms regarding the impact to bus routes and bus stops.

If there are 3rd party worksites on that date it may not be possible for the event to proceed or there may be compromises to coordinate with both. Te Komititanga would be a key area of impact.

Please note there is an Auckland FC match on 19th April which will mean more people travelling via Britomart station.

Can you please confirm if letter-drops have gone out and if they have mentioned the contingency date at all or not?

Colin – have your team looked at potential clashes on MyWorksites, I'm guessing if the TMP didn't include 19th then this may not have been part of their works clash comms to other contractors?

If you are looking at a different date we would have more time to do consultation with internal stakeholders and ensure that an updated parking resolution can be approved for the event. Please let me know what date(s) you are looking at and we can go from there.

Kia ora Rob,

Just to note, that if it is another date other than 12 April or the rain date of 19 April, we would need to go out to all stakeholders for re-approval of the event, which will add additional time onto the permitting process and would need to ensure this does not clash with any other events or rest periods for Tamaki Drive.

hi maddy

colin and i are both trying to contact you. i am being harassed from all sides about the weather and i can't make any announcement until i know that our rain date is secured. can you please confirm for me asap? if there is a process to go through, at least let me know what that is and what is happening right now? i need to put something on our web site and social channels.

carl has confirmed our event permit covers the 19th.

appreciate your earliest response.
