Kia ora koutou,

s9(2)(a), I wanted to send out this quick message to say thank you for engaging in the proposal for change and providing consultation feedback.

I know the timeframe was shorter than you would have liked, and I appreciate the effort you all made in making this work.

The team and I are already well into reviewing the feedback and considering information and suggestions provided. We will be in touch on Monday with timing for decision conversations.

Ngā mihi nui,
