**Attachments:** 10112015084236-0001.pdf

Dear Shirlene

The INCB dexamfetamine assessment for New Zealand has been increased to [REDACTED]. This will enable you to import Dexamphetamine sulphate [REDACTED] using the permit [REDACTED].

Find attached Psychotropics Assessments for New Zealand which was updated yesterday.

Please contact me should need further information.

Dear Gurjeet,

Would you be able to give me any information as to when you may hear from INCB regarding the licence from [REDACTED] t/a API for the import of dexamphetamine API.

I am aware that stock levels will be getting very low.

Kind regards  
Trish

Dear Gurjeet,

Thank you for your time today to discuss the licence from PSM t/a API for the import of dexamphetamine API. I advise that for the period 1 July 2014 to 30 September 2015 dexamfetamine 5mg tablets were funded for dispensing through pharmacies and DHB hospitals. Please note that this excludes sales to private hospitals. Sales have increased by an average of tabs over the last 3 months compared to the same period last year.

Please call me if you need further information

Kind regards  
Trish

Hi Trish/ Brian,

We could run out of stocks of Dexamphetamine sulphate if we do not get the licence form medsafe/ Who / Narcotics department etc to get the Actives from USA.

We have stocks for a month and this would cover the demand for the month of November.

we expected everyone would act fast so that we might not run into problem. Our letter is with medsafe for the last 3 weeks and we have had no luck from them.

do you want us to ration the supplies?

Please advise.

**To:** Laxmi Rawal  
**Cc:** Arceo, Ronnie R  
**Subject:** RE: Letter of no re-export - PO 34307

Dear Laxmi,

New Zealand's total assessment from the International Narcotics Control Board (INCB) for dexamfetamine is [REDACTED] grams (attached). There is only about 700 grams left in the assessment which is insufficient for the importation of the [REDACTED] order; therefore, the DEA will not authorize a DEA export permit.

PSM will need to have its competent authority apply to the INCB for an increase to the country's dexamfetamine assessment. PSM will need to provide written confirmation of this supplemental assessment increase so that Mallinckrodt may supply this documentation to the DEA in order for the application to be processed.

Please let me know if you have any questions.

Thanks and Best Regards,

Carol Schneider | Customer Service Representative

**To:** [REDACTED] API - Harry Subu  
**Subject:** 2015-11-20 dexamfetamine 5mg tabs supply issue

Dear Mitch and Harry

Thank you for your time this week to discuss and advise of the supply issues for dexamfetamine 5mg tabs.

As advised, PHARMAC intends to notify prescribers and pharmacies that there is a supply issue for dexamfetamine tabs and request that dispensing be limited to less than 30 days so that available stock may be last longer. This will be a big inconvenience for pharmacists and prescribers.

I will send you a copy of our proposed notification for your records. As advised, I have included PSM's customer service number of the letter.

It would be important for you as a responsive supplier to also advise the market, giving details of the stock issue and when you would expect stock of dexamfetamine 5mg tabs to be available again. We would appreciate being able to view any notification before it is sent to the market.

Kind regards  
Trish

**Sent:** Wednesday, 17 February 2016 11:52 a.m.  
**To:** Geraldine MacGibbon  
**Cc:** Greg Williams  
**Subject:** dexamfetamine tabs 5mg OOS followup

Hi Geraldine

I discussed this with Greg last week and I was advised to pass this information on to you.

During December 2015/January 2016 stock of dexamfetamine 5mg tabs was in short supply, and some patients had to return to prescribers for alternative therapies. I had several conversations with pharmacists wrt the number of tabs some patients were prescribed. The Medsafe data sheet recommends a maximum of 20mg per day.

Most patients on 4 tabs per day or less were able to manage until supply resumed as pharmacy dispensed small amounts on a weekly basis.

Several patients had prescriptions for 8 to 20 or more tabs per day, and it was these patients who were most affected by the OOS.

Pharmacists commented that a number of patients on large doses were young men who had been on dexamfetamine for a long time, and could potentially be on better treatment regimens and/or titrated off dexamfetamine.

Trish

**Cc:** Ronnie Arceo [REDACTED]; PHILIP Swanepoel; MICHAEL Petros  
**Subject:** RE: Dexamfetamine assessment for New Zealand as at 31 October 2015

Hi Josie,

The current [REDACTED] order is most urgent and we wish to have it despatched and delivered to us as soon as possible.

Hopefully in the next few weeks so we can use in production before we close on 21<sup>st</sup> December.

Could you please give some indication as to whether you expect to meet this.

As for the [REDACTED] it will of course not be available until 2016 anyway.

So what I was trying to clarify is with new allocation and the balance from the previous what is quantity we need to apply permit for.

My understanding is it cannot be more than [REDACTED]

This is based on total of [REDACTED] available of which [REDACTED] is already in progress.

Could you confirm if we need to reduce order 34826 and reapply for permit.

This is all very confusing even though it seems reasonably straightforward.  
Thank you.

Kind Regards,

Laxmi Rawal

Hi Budge,

We appear to have a problem with our quota.

Surprised this was not picked up in NZ when we were issued our permit.  
We need delivery within a couple of weeks so could you confirm what we need to prevent any delay.  
Thank you.

**Subject:** RE: Letter of no re-export - PO 34307

Dear Laxmi,

New Zealand's total assessment from the International Narcotics Control Board (INCB) for dexamfetamine is [REDACTED] grams (attached). There is only about 700 grams left in the assessment which is insufficient for the importation of the [REDACTED] order; therefore, the DEA will not authorize a DEA export permit.

PSM will need to have its competent authority apply to the INCB for an increase to the country's dexamfetamine assessment. PSM will need to provide written confirmation of this supplemental assessment increase so that Mallinckrodt may supply this documentation to the DEA in order for the application to be processed.

Please let me know if you have any questions.

Thanks and Best Regards,

Thanks Trish,

I'll pass on your sentiments.  
Yes, Teresa is quite a gem – we're lucky to have her.

FYI – Dex finished product has left our warehouse and is on its way to distributor (HCL). Should be there, and ready for full distribution in less than an hour.

2<sup>nd</sup> full batch will be completed later this week.

Hi Mitch

It would be appropriate to let you know how superb Teresa has been managing the dexamfetamine issues. And she was on leave for the majority of the time, but nothing was ever too much trouble. She has been always available, reliable, professional and the arrangement could not have worked without her management.

She is a very big asset for PSM/API.

Thanks again  
Trish

Trish, Monthly sales (actuals) for Dexamphetamine below.

What we sent out for delivery today [REDACTED] is approximately 2 normal sales months stock. This is also covering wholesalers backorders and replenishing their normal stockholdings. The batch that we completed today was 1,500 units, and we will complete another batch of 1,500 units by Friday. There are further batches planned over the next 2 weeks to bring stockholdings up even further.

**Subject:** FW: Letter of no re-export - PO 34307; subject : Dexamphetamine sulphate 5mg tablets

Hi Trish/ Brian,

We could run out of stocks of Dexamphetamine sulphate if we do not get the licence form medsafe/ Who / Narcotics department etc to get the Actives from USA.

We have stocks for a month and this would cover the demand for the month of November.

we expected everyone would act fast so that we might not run into problem. Our letter is with medsafe for the last 3 weeks and we have had no luck from them.

do you want us to ration the supplies?

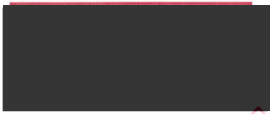

Please advise.

**Subject:** RE: dexamfetamine manufacture

Hi Trish,

I'm happy to discuss shipping with you later this week.  
The product should be ready for distribution on Friday.

We use HCL as our logistics provider for shipping of these controlled substances.

Normally the rules don't allow for shipments on Friday of controlled substances, because there isn't a guaranteed delivery option for most places on a Saturday, and the transportation companies do not have the facilities/processes storing the restricted substances over the weekend.

However, given the urgency of distribution – if we work proactively – we may be able to work together to get out some of the most urgent couriers.

- Mitch

**Subject:** RE: dexamfetamine manufacture

Hi Trish,

Your ears must have been burning !  
I just came out of a meeting where I was getting an update on progress.

Update:

The granulation process for the first batch has started this morning and should be completed by the end of today's nightshift, we are also setting up the machinery for tablet compression today (though this actual work can't get started until tomorrow) – Tableting should be completed by mid-afternoon tomorrow, and it will then go through the tablet coating process. We should then be packing off the product and performing quality checks Wed & Thurs.

Current production plan has product ready for disbursement on Friday.

Also – I hope that you had a great holiday break.

Speak soon,  
Mitch
