Hi Kimdon,
As I understand from Dayal, there was no vesting yet.
Thanks
Delia

Thanks [REDACTED]

Ripul, I notice that Minnie undertook this work initially but you've done some site walk overs.

Are you able to advise [REDACTED] on timeframes to gather the information required.

I can't see a lot in sharepoint, is there anything else you have beyond this.

[REDACTED]
Heres the link to the sharepoint site. I think AC will need to provide info in relation to this. Also Delias team might need to be involve in terms of asset acceptance.

Importance: High

Hi Kimdon,

Just a heads up, the below LGOIMA has been assigned to Development Consents for response.

We are required to charge for any work that will take over five hours to compile. Please advise via return email how long this will take and whether you would like to charge. Alternatively please advise asap if this needs to be re-directed to another team.

CAS-364380-B6J1H8
