Subject: Re: Letter from the HRC

Dear HRC,

Thank you for your initial reply to my FOI request. I can appreciate that the HRC does not want to spend too much time collating data.

However, the data (scores) must be held in electronic format (databases or spreadsheets). The HRC can simply make the unedited source data available (spreadsheets). If it were on a database then presumably some simple lookups could be used to produce the data in a few minutes.

Note : the HRC has a stated aspirations goal of transparency yet it has so far been reluctant to assist the first FOI request made to it. Simply citing the number of data points requested is disingenuous if the data is held in electronic format.

Kind Regards,
Gael

Dear Gael

Please find attached a letter from the HRC. I look forward to your reply.

Kind regards
