Dear Ms Harris

Thank you for your request for information received on 18 October 2017. You requested that the Earthquake Commission (EQC) make available to you the following information under the Official Information Act 1982 (OIA):

'I request all information held by the Earthquake Commission relating to Minister Brownlee's trip to the 54th annual 'Monte Carlo Rendez-Vous de Septembre' on 10-15 September 2011, including but not limited to his presentation to the conference.'

Please find relevant sections from the EQC Board Minutes for 11 July, 11 August and 21 September 2011 enclosed. I note that email correspondence, which also falls within the scope of your request, was provided to you by the former Minister Responsible for EQC on 18 October 2017 as part of a response to a separate OIA request you made. This same information has not been included again here. EQC does not hold any further information in response to your request.

This completes your request for information.

Yours sincerely

Monte Carlo Reinsurance Convention

For the last couple of years EQC has not been represented at Monte Carlo, mainly because the benefit to EQC was insufficient to justify the cost. However, this year the Chairman has agreed in principle that the Chief Executive attend the convention as it will provide an opportunity to engage with major reinsurers on the latest loss estimates from Canterbury, and on related matters such as the management and segregation of claims. The Chairman will inform the Minister.

Monte Carlo Reinsurance Convention

The Minister for Canterbury Earthquake Recovery has confirmed that he will be attending the reinsurance convention in Monte Carlo in September. Aon Benfield are assisting with the arrangements.

THE BOARD OF THE EARTHQUAKE COMMISSION
Held in the EQC Boardroom
Level 20, Majestic Centre, 100 Willis Street, Wellington
on Wednesday, 21 September, at 1.55pm**

Reinsurance Convention - Monte Carlo - The Chief Executive advised that he had met with the global heads of a large number of reinsurers on EQC's programme and was able to talk them through many of the issues or questions of concern to them. Most reinsurers were focused on current loss numbers rather than the future programme.

Hon Brownlee's presentation had been well received.
