**Subject:** The use of the IVS for conservation land indicator

Kia ora Elaine

I have caught up with the rest of the Land Domain team regarding the use of the IVS for a conservation land indicator. We discussed the issues you raised in detail and acknowledged your questions were valid and that the reason why we do not propose to use this data to support our indicator are currently not clear.

We agreed to provide you with a detailed constructive explanation of the decisions that have been made with respect to the use of the IVS within the domain report. The team is to compile this information, however we are in a particularly busy phase of the project so this will take some time. We intend to send this reasoning and follow up in person to discuss how best to integrate this data into the land domain report.

Nga mihi
