*If it is of any help, here is a link to the GWRC response to FYI with the equivalent spreadsheet that was provided last year that covers the information I am still missing:*

#### Transport rate model

Please find attached two spreadsheets pertaining to the calculation of the public transport rates. You can find the calculations specifically relating to public transport in ‘Public transport’ sheet.

- Rates 2019\_20 rates (proposed)
- Rates 2019\_20 rates (alternative)

Please note, the first spreadsheet contains the rates model for the proposed option with a differential applied on the general rate within Wellington City. The second spreadsheet contains the rates model for the alternative option. The rates allocation for public transport remains the same in both models.

For more information about these two options, please refer to <https://haveyoursay.gw.govt.nz/ontrack2019-20>.

We have not withheld any information on the spreadsheets.

If you have any concerns with the decision(s) referred to in this letter, you have the right to request an investigation and review by the Ombudsman under section 27(3) of the Local Government Official Information and Meetings Act 1987.

Yours sincerely
