Subject: NZ Police Constabulary Recruitment - Final Medicals

Application ID:

Kia ora TAG4,

You have reached the final medical assessment stage of the NZ Police recruitment process. This involves a medical examination with a Medical Practitioner and a visual review by a NZ Police approved optometrist.

Please note, your medical suitability for NZ Police recruitment is determined by NZ Police upon receipt and review of your final medical documents. You may also require either repeat tests or additional assessment before a final decision is made.

If you or your Medical Practitioner have any questions regarding any aspect of your medical clearance please contact the medical clearance administrator at recruitment.medicals@police.govt.nz. Do not contact your recruitment team about medical matters.

[Click here](#) to download and read the following documents:

- Recruit Application Final Medical Form
- Police Medical Examination Advice for GPs
- Final Visual Examination Report (for your optometrist to complete)
- Approved Optometrists

Medical Appointment

Please arrange an appointment with a Medical Practitioner, and notify the medical clearance administrator at recruitment.medicals@police.govt.nz of the time and date of your appointment.

You will need to provide your Medical Practitioner with the Police Medical Examination Advice for GPs document.

Optometrist Appointment

If you have not had a NZ Police eye examination within the past 12 months, please also arrange an optometrist examination with an approved optometrist.

NZ Police pays for the examinations. Any further investigation or assessment (as required by your GP or NZ Police) will be at your expense.

Your Medical Practitioner and your optometrist will invoice NZ Police for payment. They will charge us if you fail to keep an appointment or cancel with insufficient notice. If this happens, any further costs will be met by you.

Your Medical Practitioner and optometrist will return the completed examinations to the Medical Clearance Coordinator. Please request that your Medical Practitioner/Optometrist return these

documents as soon as possible, preferably by e-mail. They should also retain a copy for their records.

The medical coordinator will be in touch once your completed documents have been reviewed.

Nga mihi,

NZ Police ConstabularyRecruitment
