Dear Mr Davenport

### Request for information 2018-395

I refer to your request for information dated 18 December 2018, which was received by Greater Wellington Regional Council (GWRC) on 18 December 2018. You have requested the following information:

*“I noticed there was a reference to correspondence with WCC and also all operators. Could I receive a copy of that also please?”*

We understand this request relates to the information provided in response to OIA 2018-346 which referenced a meeting held the week of 12 November with WCC which included an agenda item in relation to red light running, and correspondence to the bus operators about the same.

GWRC’s decision follows.

The issue of traffic light adherence was discussed at the monthly meeting between the Wellington City Council (WCC) and the GWRC on 13 November 2018. The notes from the meeting and the relevant meeting documentation are enclosed with this response as **Attachment 1**.

You have also asked for copies of correspondence with operators in relation to the same issue. The issue was raised in emails with NZ Bus and Mana Coach Services, and at weekly operational meetings with GWRC officers and bus operators as part of regular weekly face to face meetings and initial discussions, with no further written correspondence entered into at this stage. The response from each operator was positive and included a willingness to contribute to any improvement to safety. A copy of the relevant correspondence is enclosed as **Attachment 2**.

Please note that information that is out of scope of your request has been removed from the enclosed documents.

If you have any concerns with the decision(s) referred to in this letter, you have the right to request an investigation and review by the Ombudsman under section 27(3) of the Local Government Official Information and Meetings Act, 1987.

Yours sincerely

**Greg Pollock**  
General Manager, Public Transport
