Subject: Re: Fw: DHB Tobacco Control Contract

Hi

I agree with Jo's comments. I will aim to get our letter out to all DHBs early next week, where we explain that we will be working with them on a way forward. I want to explain that we are keen to be looking at the bigger picture, rather than at individual services. However, if Karen already has a proposal, we could consider it. In the interim, we can hold off from extending the contract with Lakes until the way forward is clear. This will lead to some surplus which might be available to be invested as one-off to support other work or pressures.

Once I get the letter out to the DHBs, it will hopefully assist the discussion. Sorry, have just been too busy to look at it this week.

Kind regards
Anna

Hi Tony

Thanks for your email. There is no immediate pressure to renegotiate anything with Lakes as they have just given notice of exit of their service. This just means there will be an underspend in our budget, and we can do some thinking as well on how this can best be used. There is no presumption that it has to stay with the DHB.

Happy to discuss

Kind regards
Anna

Subject: Fw: Lakes DHB Tobacco Control Services

Hi Anna,

Please see below attached letter from Lakes DHB regarding their smoke free services from 1 July 2018.

A lot of the tasks listed in the letter are already mostly carried out by the stop smoking service provider Manaaki Ora.

I am yet to discuss the way forward regarding negotiating the contract with Lakes and how this might look like. I understand that Counties Manukau have indicated they are looking at taking a different approach in terms of these contracts as well.

Cheers

Subject: FW: Lakes DHB Tobacco Control Services

Thanks for talking with me this afternoon.

I have attached the letter from Pip. I have started to look at any impact there might be and I can only see opportunities. We are already doing activities in all of these areas as relevant. This gives us opportunity to re-launch our services across both Rotorua and Taupo hospital environments as well as some other health providers in the Taupo Turangi area we have not been able to successfully get into.

I will also get in contact with Karen early next week to discuss re-launch and any impact of DHB changes.

I will keep you updated of progress.

PO Box 807
Rotorua 3010

Dear Raewyn

Lakes DHB Tobacco Control Services

This letter is to provide you with an update about the Lakes DHB tobacco control services. Unfortunately I was unable to get hold of you today to provide you with a heads up in person that Lakes DHB is ceasing its smokefree coordination and smokefree midwife roles on 30 June 2018. As you know these roles are held by Yvonne Rogers and Tina Lees, both of whom will finish in their DHB roles on 30 June 2018.

This will affect many parts of the smokefree hospital and community work. At this stage the list below covers some of the work currently carried out by Yvonne and Tina, which will or will have the potential to affect the Tipu Ora Smoking Service work. I am also providing you with this information in case you may have enquiries around the DHB services and whether there is any potential for you to support and help with the ending of these services.

Specifically Lakes DHB will no longer provide the following:

- smokefree coordination
- smokefree resources
- bulk NRT supplies
- referrals from Yvonne and Tina to the smoking cessation service
- specialist smokefree cessation services
- chairmanship of the Lakes DHB Auahi Kore coalition meetings
- involvement in the smokefree retailers group
- resource to respond to smokefree enquiries by a dedicated team
- participate in the public smokefree spaces and policy development
- provide cessation support for Lakes DHB staff
- coordinate the provision of World Smokefree Day resources and
- Lakes DHB will not be accredited to provide smokefree training without Yvonne and Tina

Hopefully you can help and support us through this period. Also please contact me for more information.

Yours sincerely

Pip King
Portfolio Manager, Maternal Child and Youth Health

Subject: RE: RAUORA stop smoking trial: promotion within hospitals

Kia ora Raewyn

Thanks for touching base. I am not sure what discussions have taken place with Pip to transition to a new space for cessation provision to be from the regional service. I have discussed the possibility with all concerned that we are open to your staff coming on site to provide cessation if you wanted to do that. It does happen in other hospitals in NZ. If you are not wanting to do that then happy for referrals to come your way via whatever you and Pip agree makes best sense. What will be needed is visibility on responsiveness in the short to medium term to maintain confidence of hospital referrers esp if you decide to have no presence on the site. I have also talked to Tony who is not opposed to Tipu Ora providing cessation support to patients in hospital esp as then there is no handover and just a start of a journey with Tipu Ora (or continuation if you are already working with whanau who are admitted).

I am really sorry I am off site and fulltime committed to the strike action so will have to leave this discussion to you and Pip to resolve in a way that makes sense for all concerned before the 1st of July – even if that is a shorter term solution to allow more time to talk. I am pretty much out of action until after the 16th of July.

Thanks
Karen

Subject: RE: RAUORA stop smoking trial: promotion within hospitals

Kia ora Karen,

I have become aware of the changes happening at Lakes in the Tobacco Control area following communication from Pip King last week. I have indicated to Pip we would assist in areas we are able to that fall within our current Service Agreement for the Regional Stop smoking service. I am currently working through this and don't see any significant changes. The main area will be for Tipu Ora to "test" the current referral pathway ensuring we respond in a timely manner to any referral from both Rotorua and Taupo Hospitals to the Stop Smoking Service.

It has come as a surprise to receive an email from Dr Natalie Walker, Rauora Trail advising that Tipu Ora will now be delivering services inside the hospital – see commentary in email below.

I would like to meet or talk with you on the current situation so both parties move through the next phase without significant disruption or impact. – maybe if you could call me for a discussion would be helpful at this point. I am also keeping Tony Brown informed of these issues that arise and potentially fall outside of our contract agreement service delivery requirements.

I look forward to hearing from you

Subject: RAUORA stop smoking trial: promotion within hospitals

Hi Ben

Barry Smith at the Lakes DHB has informed me that the DHB has changed the provision of smoking cessation services with the region's hospitals. I have been advised that Tipu Ora will now be delivering such services within the hospitals.

Do let us know if you need any additional promotional material for RAUORA as part of this change, or if we can support you in any way with promotion of our trial within the hospital.

Best wishes

Natalie

Thanks Karen, that's great. I will send this to Sector Services now for processing, there may be a slight delay due to back log of contracts. Just FYI, I have placed the due date for the TC plan to 1 May 2019 under section 1.1 of the service spec.

Please feel free to call me if you need to.

Cheers

Subject: DHB Tobacco Control Service Specification

Kia ora Karen,

Please find attached below the proposed service specification for your DHB's tobacco control contract extension (12 months).

Could you please fill out the indicative budget section and return back to me for processing.

You may have seen media coverage suggesting that the health targets have been disestablished.

The Minister of Health is considering advice on the health targets but any changes are not expected to be announced until later in the calendar year.

In regards to your DHB tobacco control contract, we can proceed with the contract as drafted. If future changes are needed around areas like the health target component, a variation to the contract may be made at a later date.

Should you have any feedback on the spec and/or wish to discuss this matter please let me know.

Regards

Hi Tony

Are you coming over tomorrow afternoon for the Tipu Ora meeting? It hasn't been clear but Raeeyn thought you were and I had expected you to be coming as she wants to essentially talk about your contract and how that interacts with the hospital I think.

Thanks
Karen

Subject: Summary Notes from Regional TIN meetings Southern, Northern, Central and Midlands Regions

Greetings all,

Please see attached a copy of the summary notes from the regional TIN meetings.(please note, the attachments will be sent separately).

You will see from the summary of the Regional Stop Smoking Services that there is a great list of innovative work practices and exciting initiatives that is happening across the regions from the different services and also the challenges that services have encountered and how these have been addressed. There has also been a real commitment and collaborative effort from all of the strategic partners involved and this is great to see.

As mentioned, we will be looking at holding our next meeting some time in late October/November, but will keep you updated as to the format and where these meetings are held.

Regards

Tony Brown
