Good Afternoon All,

Please see the below email regarding ZX Security training opportunity being coordinated by NZDF.

Many of you may know Simon Howard, previously from IntuiSec, now ZX Security Ltd. Simon is offering his own Open Source Training Course. This course is an advanced course to the one currently being facilitated through CLAG.

Released under the Official Information Act 1982

NZDF have 8 available spaces on this course. Please contact[redacted] directly to register for this course by 22 October.

[redacted]@nzdf.mil.nz

Thanks.

Subject: Unclassified - ZX Security training

Hi [redacted]

As discussed, NZDF are engaged with Simon from ZX Security to undertake some open source research training.

There will be four of us attending, but he is happy to have a maximum of 12, so perhaps there would be OGA who would like to fill up the spaces.

My intention is to book this is for late November/early December. Whilst I realise that this is close to Christmas I'm keen to have the NZDF pers undertake this sooner rather than later – open source is a important tool.

The course runs for one day at a cost of $800pp, plus a single fee of $990. The $990 covers the facility hire (venue TBA in Wellington CBD), lunch, tea/coffee etc, and I would anticipate that this cost would be split amongst the attendees.

Attached is the generic flyer, and the documentation that he put together for NZDF specifically which provides a guideline. I would expect that the attendees could walk away from this and provide this training to others in their teams.

If you could disseminate this amongst your contacts to see if anyone is interested in attending with us that would be most appreciated.

Responses by 22 October would be appreciated (though I'm not sure if that is reasonable...if it's not then lets go for 5th Nov).

Kind regards

Hi [redacted]

Great to catch-up the other day, as discussed please find attached the outline for my Advanced Open Source Intelligence Gathering course.

I have already had a number of government departments attend, so if someone is looking for a reference then point them my way and I can get them in touch with some people who have already attended.

The costs associated with the attending the training are as follows

- $800 per person, minimum of 2 people
- Special CLAG discount available for multiple attendees
- Maximum attendees per workshop is 8
- If the client wishes me to run the course outside of Wellington then there will be additional costs associated with flights and travel.
- I have training room facilities available in the major cities at $990/day
- I am flexible in the delivery of my material, if you wish to go deeper on a particular subject, or have one removed, then that can be accommodated.

Let me know if there are any questions.

Cheers,
Simon

Hi Simon

Thanks for yesterday, I think we all came away with some really valuable tools and techniques. I agree that the interagency participation was also great because members of different agencies asked questions that perhaps others would not have thought of.

Speaking to the NZDF people, we did feel like we needed more time on the material and tools. We felt that we could probably have had the same amount of time covering just half of the material. We also felt like we could have used more time on 6(c)

That being said we are all very excited to start playing with some of the tools you showed us!!

We really appreciated your patience and guidance, and look forward to future engagement.

Thanks

Hey 1

Thanks for organising everyone to attend the course today, it was greatly appreciated!

I think there was some value in having investigators from quite a few different backgrounds all in the same room. The course feedback was also generally pretty positive (although I might have gone a bit fast in places in order to cover all the material).

I have attached the slide deck, can you please distribute to the attendees as your leisure.

Let me know if there are any questions, I will send through the invoices shortly.

Cheers,
Simon

Subject: ZX Security - Upcoming Advanced OSINT Training - Auckland & Wellington Dates

Greetings,

Released under the Official Information Act 1982

ZX Security is looking to run our 2-day Advanced Open Source Intelligence course in both Auckland and Wellington next month, we have moved to an online registration & invoicing system which we hope will make it a lot easier for everyone.

So if you, or someone from your team would like to register (discounts available for 3 or more registrations), please visit the following URLs:

Location: **Wellington**
Course Dates: 20 – 21 June 2016
URL: 9(2)(b)(ii)

Location: **Auckland**
Course Dates: 23 – 24 June 2016
URL: 9(2)(b)(ii)

The courses will run if we have a minimum of 4 people at each location. Alternatively, if you would like to run a private session for your new recruits get in contact and I will arrange something accordingly.

Let me know if you have any questions, and please feel free to forward this on to your friends and colleagues.

Cheers,
Simon

Subject: ZX Security - Upcoming Advanced OSINT Training - Auckland & Wellington Dates

Greetings,

ZX Security is looking to run our 2-day Advanced Open Source Intelligence course in both Auckland and Wellington next month, we have moved to an online registration & invoicing system which we hope will make it a lot easier for everyone.

So if you, or someone from your team would like to register (discounts available for 3 or more registrations), please visit the following URLs:

Location: **Wellington**
Course Dates: 20 – 21 June 2016
URL: 9(2)(b)(ii) [redacted]

Location: **Auckland**
Course Dates: 23 – 24 June 2016
URL: 9(2)(b)(ii) [redacted]

The courses will run if we have a minimum of 4 people at each location. Alternatively, if you would like to run a private session for your new recruits get in contact and I will arrange something accordingly.

Let me know if you have any questions, and please feel free to forward this on to your friends and colleagues.

Cheers,
Simon

Subject: RE: WLG OSINT Training Update

Hi Simon,

No worries at all, happy to push it out a couple of months.

Another option could be if you don't end up having the numbers for both sessions, I could look at travelling to Auckland (budget pending) to attend and could look at holding some meetings with DIA counterparts while there.

Keep me posted nearer the time with what you decide to do.

Subject: WLG OSINT Training Update

Hi [redacted]

Firstly, thanks for booking in for the Wellington OSINT training course!

I have had interest from quite a few people but you are the only one who has registered so far, I have already moved the Auckland course out to August to suit a few people and was wondering if you would mind terribly if I moved the Wellington one out a few months as well.

If you are ok with that I will look to move it out until 23/24 of August. Let me know if that doesn't suit or if you have any major objections.

Cheers,
Simon

Hi Simon,

That's a shame.

I've had a chat to my manager who wondered if you think it will take place within the next 6 months? If so, hold off refunding and just credit it towards the next course as we already have approval for this training and we'd need to go through the process from scratch again if you were to refund.

If you think buy in from other agencies may take longer, then go ahead and refund.

I hope this makes sense.

Cheers,

Hey [redacted]

I still don't have the numbers required to run this course in Wellington unfortunately.

I have spoken with a number of the government departments and their main issue is legislation. Everyone is waiting for their legal teams to sort out what they can and can't do with regards to OSINT and while this is being developed they remain in limbo.

What I will do is refund your money to DIA then put you on my notification list for future events. Hopefully one of the departments gets sorted in the short-term and I can put you on their course.

Does that sound alight? Sorry again for messing you around a bit.

Cheers,
Simon

Subject: Upcoming OSINT Training - Wellington - November 15th

Greetings,

Just to let you all know that I am running my 1-day OSINT training session during just before Kiwicon this year, details are here: 9(2)(b)(ii) [redacted]

Tickets are $800 (incl GST) which is a bit cheaper than normal, this also includes room hire. The course will be more focussed on organisational-level OSINT, and we won't be covering a lot of the basics so would be better suited for more experienced team members.

As always, if you are interested in a custom course for your organisation , feel free to get in touch.

Cheers,
Simon
